

# For Organizations

## Five things you can do to get more out of ORCID

**1**

### Add affiliation data with existing integrations

Some of the systems you use may already be ORCID-enabled. [Check here to see.](#)

**2**

### Consortia members – enable the Affiliation Manager

Add affiliation data to ORCID records by simply uploading a CSV file – no need for an integration.

**3**

### Build or expand your integrations

Our APIs follow common technical standards and have already been used by thousands of organizations to integrate their systems. We offer extensive [documentation](#) to everyone and, for ORCID members, we have support staff on hand to help navigate through the API integration process.

**4**

### Encourage your researchers to register for and use their records

Encourage your researchers to set up connections with your systems, and to update their records. Visit our [Outreach Resources](#) page for some ideas.

**5**

### Explore your new member reports

Get insights with improved data visualization from your member reports whenever you want!
