

# ORCID and the OSTP Guidance on NSPM-33

*NCURA Annual meeting, August 8, 2022*

**Lori Schultz**

*Assistant Vice President, Research Intelligence  
(Research, Innovation & Impact)*

**University of Arizona**

 <https://orcid.org/0000-0002-1597-8189>

**Shawna Sadler**

*Engagement Manager, Outreach and Partnerships*

**ORCID**

 <https://orcid.org/0000-0002-6103-5034>

# Disclosure

Lori Schultz joined the ORCID Board of Directors in January 2022

# Agenda

## For those who are new to ORCID and NSPM-33

1. NSPM-33 overview
2. Quick overview of ORCID
3. ORCID adoption in the US & globally
4. ORCID & NIH/NSF

## For those who are ready for more

5. How research organizations benefit from ORCID
6. Next steps...

FOR IMMEDIATE RELEASE

Tuesday, December 21, 2021

## Harvard University Professor Convicted of Making False Statements and Tax Offenses

Dr. Charles Lieber found guilty of concealing his affiliation with the Wuhan University of Technology and his participation in China's Thousand Talents Program

NEWS | 07 March 2022

## 'I lost two years of my life': US scientist falsely accused of hiding ties to China speaks out

Acquitted nanotechnology researcher Anming Hu returns to his lab after two years – and is still grappling with the aftershocks of his ordeal.

## *U.S. Drops Its Case Against M.I.T. Scientist Accused of Hiding China Links*

Gang Chen, a professor of mechanical engineering, was arrested a year ago, accused of concealing his affiliations with Chinese government institutions.

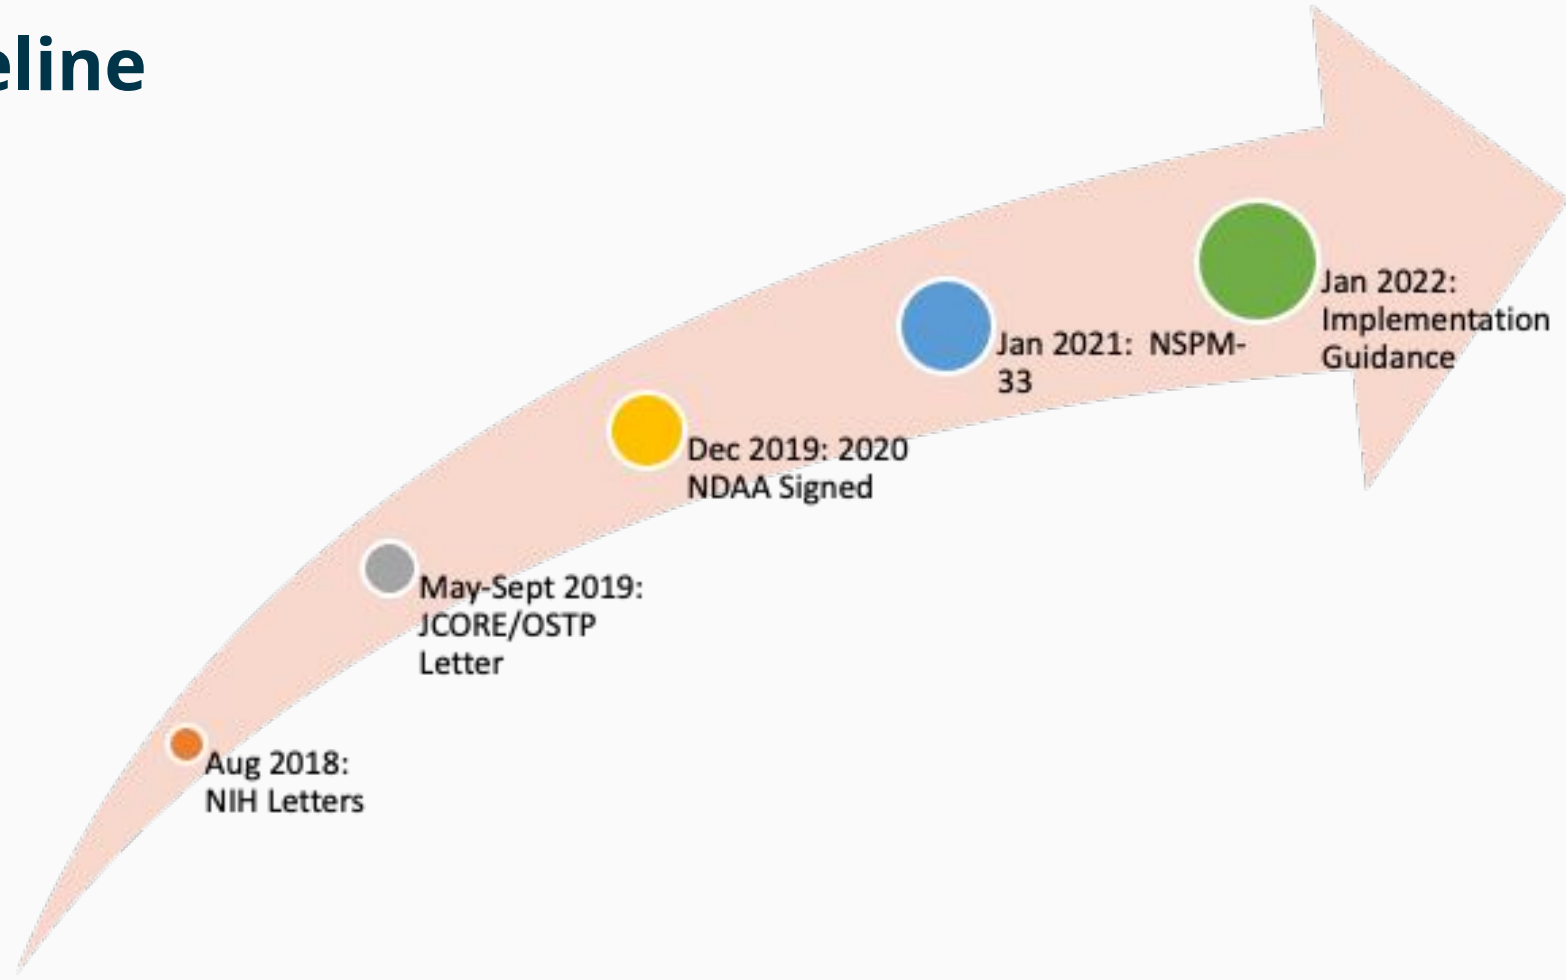

# How does foreign influence manifest?

- Violating confidential peer review process
  - both manuscripts and proposal applications
- Taking IP from US and filing patents outside the US
- Appointments/affiliations that duplicate US federal funding/effort (not disclosed)
  - Foreign talent programs
  - Other support that overlaps

# Timeline

# January 2022 OSTP Implementation Guidance

## 5 Key Sections

1. Disclosure Requirements and Standardization
  - a. Biosketches
  - b. Current & Pending Support / Other Support
2. Digital Persistent Identifiers (ie. ORCID)
3. Consequences for Violation of Disclosure Requirements
4. Information Sharing
5. Research Security Programs

# NSPM-33

National Science and Technology Council (NSTC)

## GUIDANCE FOR IMPLEMENTING NATIONAL SECURITY PRESIDENTIAL MEMORANDUM 33

- Adopt digital persistent identifiers to ease reporting & compliance
- Reduce administrative burden
- Disambiguates one researcher from another
- Researcher controls the content in their record/profile
- DPI is free to researchers
- DPI enables interoperability between systems

# ORCID Overview

# Poll #1

Connecting Research  
and Researchers

# A Few ORCID Facts...

- Independent not-for-profit open to participation by all
- Registry launched in 2012
- Sustained by fees from our member organizations
- Guided by our values and founding principles
- Community-governed by a Board of Directors representative of our membership

# ORCID, which stands for Open Researcher and Contributor Identifier, provides three main services

1. The ORCID iD: a unique, persistent identifier free of charge to researchers

2. An ORCID record/digital cv connected to the ORCID iD, that can include employment, education and research output metadata

3. A set of Application Programming Interfaces (APIs), as well as the services and support of communities of practice that enable interoperability between an ORCID record and member organizations

# Researchers can access all their research information via their own unique ORCID profile, to be used wherever they need it.

	<b>Uniquely yours.</b> Distinguish yourself and claim credit for your work while controlling access to your data, no matter how many people have your same (or similar) name.
	<b>Name flexibility.</b> ORCID helps reduce the negative consequences of name changes so you will no longer be limited to the name you used when you began your career.
	<b>More time for research.</b> By allowing trusted organizations to add your research information to your ORCID record, you can spend more time conducting your research and less time managing it!
	<b>Control your visibility and discovery.</b> ORCID links all your research together, while you control the visibility of each piece of data. Easily see links to your research activities in one place—affiliations, funding, publications, and other contributions.
	<b>Reduced administrative burden.</b> Experience greater ease as an increasing number of manuscript submission and grant application forms can be auto-populated when you log into their systems with your ORCID. Spend less time re-entering your data!
	<b>Portable profile data.</b> Easily share the data in your record with an increasing number of funding, publications, data repositories, and other research workflows.

# ORCID is broadly used by researchers around the world

**There are 10 Million active ORCID users in 246 countries**

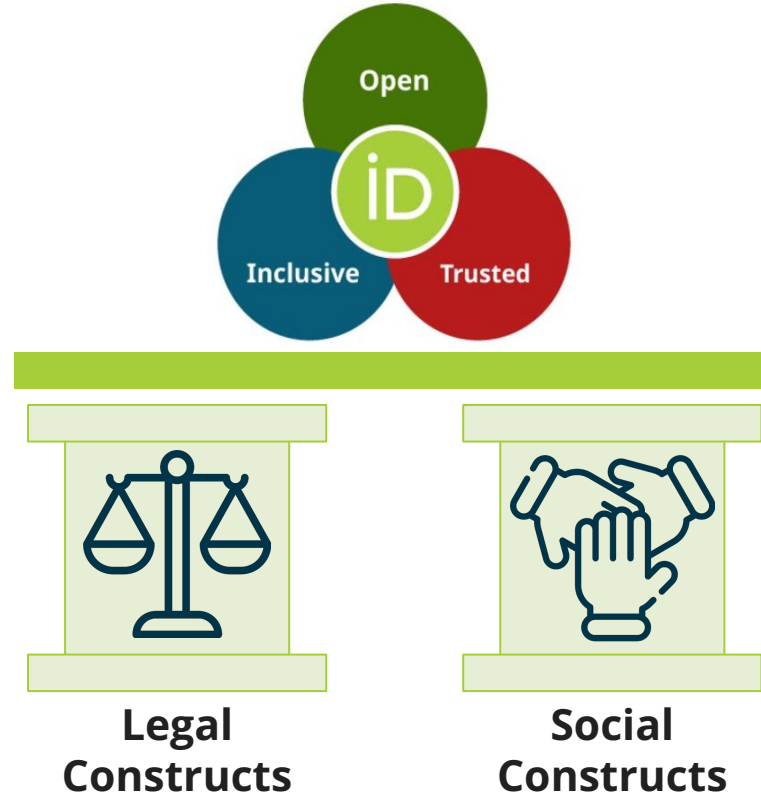

That's every country on the planet apart from,

- Niue - island nation in Oceania, pop. 2k
- Norfolk Island - Australian island, South Pacific, pop. 2k
- Saint Pierre and Miquelon - French archipelago south of Newfoundland, pop. 6k

# ORCID was built from the ground up to win the broadest possible trust of the communities we serve

- Legal incorporation as US non-profit entity
- Membership organization open to all
- Governed by board elected by our members
- Legally binding membership agreements
- Privacy policy regulated by GDPR and other national regulations
- Legally binding employment agreements, code of conduct, etc

- Founding principles and values
- Commitment to researcher control
- Open source software and FAIR open data
- Equitable, sustainable business model
- Holding ourselves accountable by working openly
- Continuous community engagement and dialog

# Researchers are in full control of their ORCID records

- Fine-grained privacy controls let researchers control the visibility of each item in their record
- Data can only be added to the record with researcher's permission
- Consider writing to the Employment & Education sections

**▼ Employment (3)**

**NYU School of Medicine: New York, NY, US**

# ORCID is increasingly a hub for an immense amount of profile activity with over 4,100 interconnected systems

# ORCID adoption

# There are two ORCID members consortia in the US

## Federal Agencies & Labs

US Government  
**ORCID Consortium**

Organized by the US Department of Energy  
Office of Scientific and Technical Information

19 members

[ORCIDconsortium@osti.gov](mailto:ORCIDconsortium@osti.gov)

Non-profit  
organizations  
(Universities)

179 members

[orcidus@lyrasis.org](mailto:orcidus@lyrasis.org)

# Federal Agency Members

1. Centers for Disease Control (CDC)
2. Department of Energy (DOE) OSTI
3. Environmental Protection Agency - EPA
4. Food and Drug Administration (FDA)
5. NASA
6. National Institute of Health (NIH)
7. National Oceanic and Atmospheric Administration (NOAA)
8. USDA
9. USGS

# Federal Laboratory members

1. Advanced Photon Source
2. Argonne Leadership Computing Facility
3. Argonne National Laboratory Library
4. Brookhaven National Laboratory
5. Center for Nanoscale Materials
6. Lawrence Berkeley National Laboratory
7. Los Alamos National Laboratory
8. Oak Ridge National Laboratory (ORNL)
9. Pacific Northwest National Laboratory
10. Princeton Plasma Physics Laboratory

179 Member organizations:

- Universities
  - Libraries
  - Research Offices
- Research Institutes
- Research Funders
- Societies & Associations
- Health & Hospital Systems
- Research Groups

# ORCID, NIH & NSF

## ... and other funders

# SciENCv - ORCID is already integrated with NIH & NSF

1. Researchers can import data from their ORCID profiles into SciENCv

2. SciENCv maps the ORCID profile fields into the relevant biosketch format

**Create New Profile**

You have 3 options for creating a new profile in SciENCv:

Name:    
Enter a name to help you to identify this profile

Type of profile: **NIH Biosketch**  
Additional profile types will be added later this year.

External source: 

  
Your ORCID account is linked to SciENCv. 

Sharing: ☒ Public ☐ Private  
You can change the shared settings for this profile at any time.

**From an external source:**

Some portions are auto-populated with data from an external profile

	iD	NIH Biosketch
1.	Biography	Personal Statement
2.	Employment	Positions and Honors
3.	Education	Education/Training
4.	Works	Citations & Contribution to Science
5.	Funding	Additional Information: Research Support and Scholastic Performance

# NSF Draft policy & procedure

## Anticipate effective January 2023

“Individuals are encouraged to obtain an ORCID ID to facilitate prepopulation of their biographical sketch in SciENcv. Use of an ORCID ID may help reduce the administrative burden associated with preparation of this section of the proposal.”

## Requirement for ORCID iDs for Individuals Supported by Research Training, Fellowship, Research Education, and Career Development Awards Beginning in FY 2020

**Notice Number:** NOT-OD-19-109

### Key Dates

**Release Date:** July 10, 2019

# Expected updates...

## NSF SciENCv

- BioSketch: ORCID to be featured more prominently
- Current & Pending Support: ORCID will be a new feature to populate data in this form

## NIH SciENCv

- BioSketch: ORCID to be featured more prominently
- Other Support: ORCID will be a new feature to populate data in this form

# Goal: Accurate & real-time data in ORCID records

**Requires: Universities, Funders & Publishers to write data to ORCID records and synchronize with ORCID**

# How research organizations benefit from ORCID

# Goal: Accurate inventory of your researcher's research activities and funding

Universities around the world are investing in,

- Research Inventory Management Systems (RIMS)
  - RIM is a term commonly used in North America
- Current Research Inventory Systems (CRIS)
  - CRIS is commonly used in Europe and Australia
- Custom solutions

# Research Management Systems collect the important data about research happening at your university

1. **People: How many people are conducting research at your university?**
  - a. List of the researchers affiliated with your university
  - b. Each research has an ORCID iD to disambiguate them from one another
2. **What are they researching?**
  - a. List of scholarly output for each researcher
3. **Which Faculty & Department are they affiliated?**
  - a. Are they affiliated with any other universities or labs?
4. **Funding: What funding have they received?**
  - a. Funder
  - b. Amount of funding

# RIM/CRIS Systems that exchange data with ORCID

	<b>DSpace CRIS</b> (Open Source)		<b>Haplo</b>
	<b>Elements, from Symplectic</b>		<b>infoEd</b>
	<b>Esploro, from ExLibris</b>		<b>Pure, from Elsevier</b>

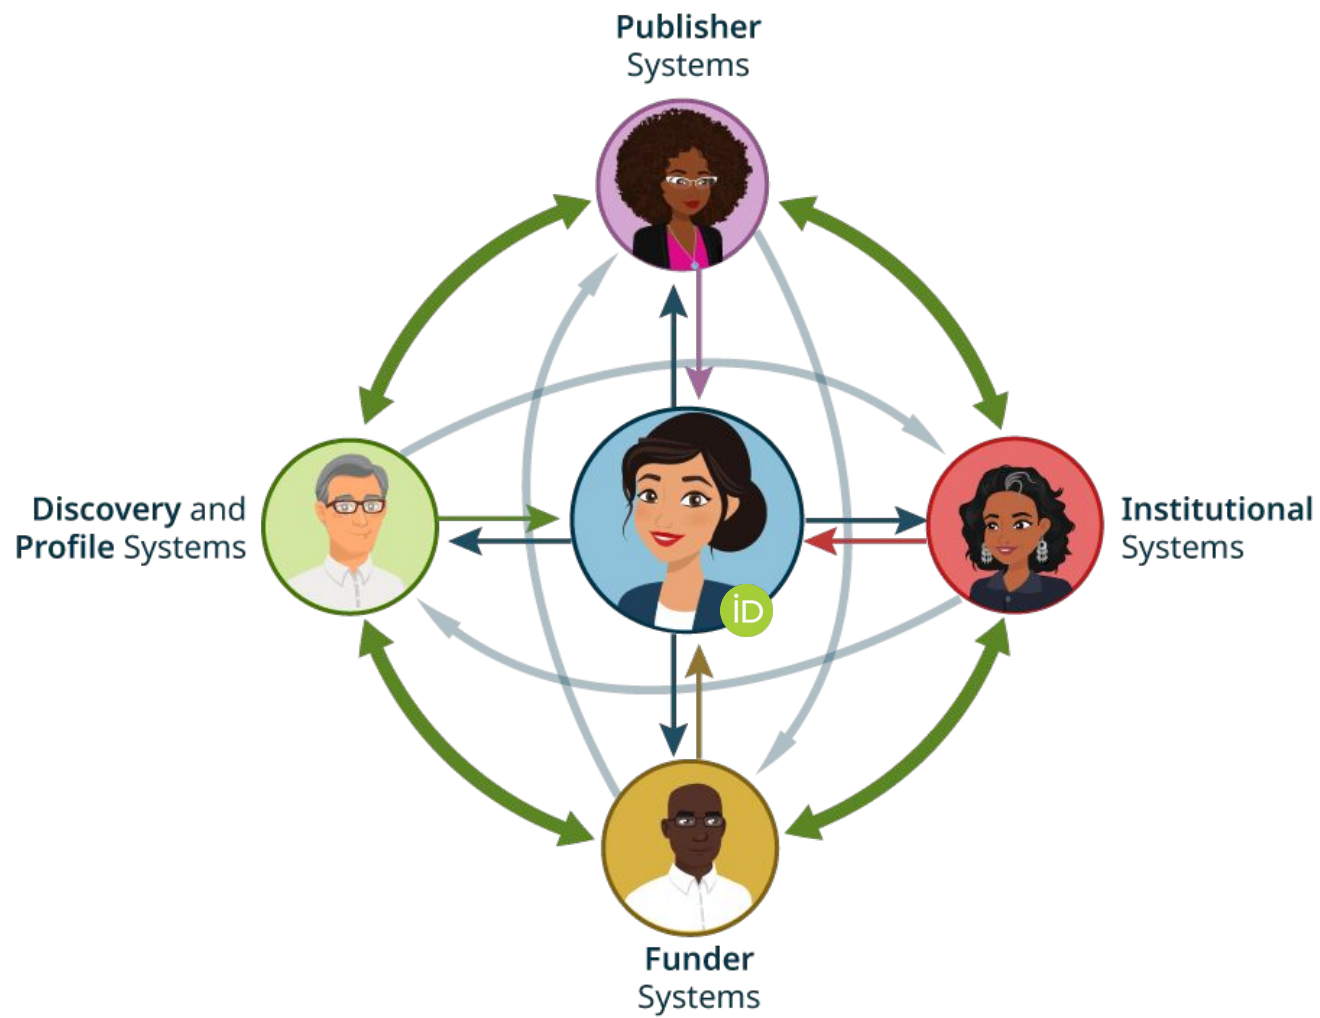

## Example of a ORCID Use in a local RIM system

marcia rieke

Marcia Rieke

# ORCID allows Universities and Research Institutions to stay up to date with the research that comes from their scholars — while making their lives easier.

	<b>Name disambiguation.</b> Have confidence that you have correctly identified contributions from your researchers, regardless of the popularity or variability of their names.
	<b>Better research connections.</b> Follow your researchers' careers even after they leave your institution. Keep better track of collaborators and peers at other institutions.
	<b>Reduce costs.</b> Reduce the costs required to track the research that comes from your institution by automatically accessing authoritative trusted publication and funding data from your researchers' ORCID records.
	<b>Improved visibility of outputs.</b> Improve the visibility of your researchers' outputs and ensure they get the recognition they deserve by automatically writing authoritative, trusted affiliation data via integration with the ORCID registry.
	<b>Reduced administrative burden.</b> Increase both efficiency and quality in critical processes like assessment exercises. Avoid time spent re-entering data during submission, review, and reporting. When your researchers have more time to spend on research, you save money!
	<b>Interconnected infrastructure.</b> The ORCID registry is an open, interconnected hub of profile data. By integrating with ORCID, you can contribute affiliation data and extend the reach of your systems. Sharing data with ORCID can help you to avoid being locked into costly, proprietary systems.

# Member universities can increase the trustworthiness of ORCID records by writing validated data to researcher's records (with their permission)

## ORCID Member Organizations

ORCID is a non-profit organization supported by a global community of organizational members, including funders, professional associations, and other stakeholders in the research ecosystem. Interested in joining? [Learn more about membership](#)

There are currently 173 ORCID Member Organizations

[All members](#) | [Consortia members](#)

United States ▼ Research Institute ▼ Reset

[ALL](#) [A](#) [B](#) [C](#) [D](#) [E](#) [F](#) [G](#) [H](#) [I](#) [J](#) [K](#) [L](#) [M](#) [N](#) [O](#) [P](#) [Q](#) [R](#) [S](#) [T](#) [U](#) [V](#) [W](#) [X](#) [Y](#) [Z](#)

### American University

Research Institute | United States

American University creates meaningful change in the world. With highly ranked schools and college-recognized faculty, AU offers a balance between class time and career-advancing experience in Washington, D.C. beyond. Its students, among the country's most politically active, distinguish themselves for their leadership and ability to rethink global and domestic challenges and opportunities.

### Arizona State University

Research Institute | United States

Arizona State University is the largest public university in the United States. ORCID is incorporated into ASU's library system as well as through the research office's [experts.asu.edu](https://experts.asu.edu), an instance of ORCID for finding expertise based on scholarly work data. Individual experts are profiled faculty members' ORCID iDs that can be incorporated into [experts.asu.edu](https://experts.asu.edu)

### Auburn University

Research Institute | United States

Auburn University is one of the nation's premier land, sea, and space grant institutions. Consistent with the U.S. News & World Report's list of top 50 public universities, it is both highly research-active and committed to teaching excellence, offering 140 degree options in 13 schools and colleges. With an enrollment of over 30,000 students, Auburn University is nationally recognized for its commitment to academic excellence, positive work-life balance, student life, and the beauty of its campus. It is located in the small, friendly college town of Auburn, Alabama, 115 miles southwest of Atlanta, Georgia.

### Augusta University

# Benefits of ORCID

1. Reduced administrative burden
2. Populate data in researcher's profile for them
3. Connect your system
  - a. Enable auto updates
  - b. Keep the data in your systems up to date

# Watch the University of Florida's ORCID integration

## ORCID at UF:

The University of Florida's response to NSPM-33

### UF Research

**Stephanie Gray**

Assistant Vice President &  
Director, Sponsored Programs

**Karen Pastos**

Project Manager

**Jordan Edwards**

Database Administrator

<https://youtu.be/4UnhXn2LLPU>

# Learn more about Research Information Management Systems (RIM) from OCLC Research

Rebecca Bryant  
Senior Program Officer  
OCLC research

# Next steps...

# Step 1

Get an ORCID iD

[orcid.org](https://orcid.org)

Start populating your ORCID record

Everything we're describing will make more sense

## Step 2

- Visit Shawna at ORCID's table, say hi and get a sticker
- ORCID's Coffee hour on Tuesday afternoon
- Say hi to Lori and ask about her experience with  
ORCID at the University of Arizona

## Step 3

Talk about NSPM-33 at your university

How will your university meet the new requirements from the NIH & NSF?

Will ORCID be part of this plan?

# Step 4

## ORCID Membership

is required to write data to ORCID records

ORCID US consortium is hosted by Lyrasis

<https://orcidus.lyrasis.org>

179 Members

# Step 5

## Write to ORCID records

### 1. Employment

- a. Position title
- b. Department & Faculty
- c. Start date (end date)

### 2. Education

- a. Degree
- b. End date

# What Universities can do next to prepare for these changes

- Does your university have ORCID membership?
- Which campus systems are connected to ORCID?
- Discuss who is going to write data to the ORCID profiles of your researchers?
- Form a working group to plan
